

Notice: Update on Plug and Transact Token

With reference to the Notice on the Nedbank Home page Please follow the steps below for Windows version update

### Step 1

Insert the token into the USB port and wait a few seconds until the blue light on the token comes on.

If autorun is enabled, the secure browser will open.

### Step 2

If the secure browser does not automatically open, your autorun is disabled.  
Please enable it as follows:

- **Windows computer**

Click on 'Start' > 'Computer' > 'D/E drive' > 'Nedbank secure browser'

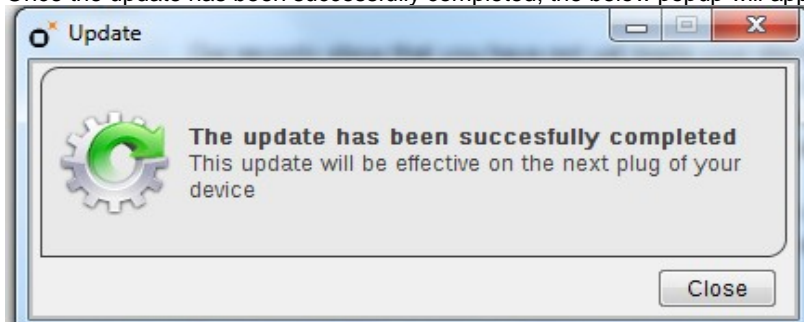

### Step 3

Allow the update to run. The update screen can be minimised and you will be able to log on and transact as normal.

### Step 4

Once the update has been successfully completed, the below popup will appear:

For any concerns or questions regarding the update kindly contact the relevant helpdesk for further information.
